

BENEO Animal Nutrition

Your trusted partner for animal health and wellbeing.

At BENEO Animal Nutrition we offer feed ingredients from five natural sources: sugar beet, chicory root, rice, faba beans and wheat. We strive for a constant high quality and supply security with our own production plants that manufacture both our food and feed ingredients. Working with our functional, plant-based ingredients, you can count on quality certificates such as GMP+, FCA & QS.

At the same time, ensuring nutrition with proven benefits and sustainability are strongly interlinked at BENEO. Being part of the Südzucker Group, we have ambitious targets towards sustainability for which we commit at every step of the value chain, reaching from field to fork and beyond. This includes supporting resilient farming and supply chains, caring for people and mitigating our impact on the planet.

connecting nutrition and health

Nature's goodness valorised in our portfolio.

Discover our sources that offer a natural abundance of nutritional and technological benefits.

Our ingredients from CHICORY ROOT

Orafti® inulin & oligofructose
- Prebiotic fibre*
- Higher mineral absorption
- Support gut microbiota and digestive health
- Weight control in pets
- Improved performance in production animals

Orafti® chicory molasses
- Source of energy
- Syrup with balanced sugar composition
- Rest fraction of inulin
- Good pellet binder

Orafti® chicory vinasse
- Protein-rich liquid feed
- Source of rumen degradable protein
- Good pellet binder
- Alternative to urea

Our ingredients from FABA BEANS

BeneoFeed faba bean hulls
- Sustainable source of insoluble fibre
- Residual content of starch and protein

BeneoFeed faba bean starch-rich flour
- Sustainable source of starch
- Cost-effective filler
- Suitable for no-grain
- Low in some anti-nutritional factors

BeneoFeed faba bean protein concentrate
- Sustainable source of vegetal protein
- Good alternative to animal and soy proteins
- Good amino acid profile, high in glutamine and arginine
- Excellent solubility amongst other plant proteins

Our ingredient from WHEAT

BeneoPro vital wheat gluten
- Excellent digestibility
- Alternative to fish meal
- Concentrated source of vegetal protein
- Balanced amino acid profile, rich in glutamine
- Unique visco-elastic properties for optimisation of extrusion and binding properties

Our ingredients from SUGAR BEET

Isomalt
- Pure, sugar-like taste
- Excellent coating properties
- Bulk sweetener (half the calories of sugar)

Isomaltulose
- Low glycaemic carbohydrate
- Slow-release energy
- Supports blood glucose and metabolic control and weight management in dogs

BeneoCarb S
- Ruminal by-pass energy
- Low risk for acidosis
- Highly palatable
- Balanced glycaemic response (more slowly released sugars)
- Excellent binder
- Antioxidative properties

Our ingredients from RICE

Remy rice flour
- Clean label source of energy
- Highly digestible
- High-quality filler-binder
- Improved extrusion behaviour

Remy rice starch
- Clean label, pure source of carbohydrate
- Highly digestible
- Excellent texturizer
- Natural alternative to hydrocolloids
- Whitening properties
- Neutral taste and colour

Remy rice protein
- Clean label
- Concentrated source of vegetal protein
- Highly digestible and hypo-allergenic
- Favourable amino acid profile

** Complying with International Scientific Association for Probiotics and Prebiotics (ISAPP) standards*

Our ingredients portfolio.

Our portfolio of high quality ingredients of natural origin, provides an extensive range of technical and nutritional benefits in a variety of applications: pet food, compound livestock feed and aquafeed.
